L Remarks
Local Option
E55 on scene to find a three vehicle (Tesla, Audi, Mazda) accident with one vehicle on fire (Tesla). E55 established 101 Incident Command and initiated fire attack. E53 on scene assigned to patient care with R51. PT treated per PCR. B51 on scene assumed IC, E55 Captain assigned to survey the scene for additional involved and/or injured parties. Second precautionary ambulance requested code 3 to the scene. Third ALS Engine requested (E54) and subsequently cancelled. T51 on scene provided safety support vehicle for crews operating at the accident scene. CHP on scene, assumed control of the scene: Sergeant Paul Burns [REDACTED] ranking California Highway Patrol Officer. PT transported code 3 to Stanford Hospital with two MVFD Firefighter/Paramedics providing PT care along with County Ambulance paramedic. E53 released from the scene to follow ambulance to Stanford Hospital to retrieve personnel and equipment. Second ambulance arrived on scene and assisted with assessment of the driver of the Audi. PT declined treatment and transport. Driver of the Mazda declined treatment and transport. After PT transport and fire extinguishment the Tesla was deemed a possible electrical hazard and all personnel operating on scene advised to stay away. E51 on scene to relieve E55, T51 and R51 released from the scene. B51 made contact with Tesla representatives by phone regarding additional actions to make the Tesla safe to approach and have removed from the scene. Frederic Marangone, Tesla Battery Engineer advised that the vehicle was not safe due to the extent of damage and that all personnel should stay away from the vehicle until it could be evaluated by Tesla representatives. Geoff Cutler [REDACTED] and Christian Khurana arrived on scene from Tesla in Palo Alto and began physical evaluation of the vehicle. E55 returned the scene to relieve E51. Eventually it was determined that the Tesla could not be made completely stable on scene due to extensive damage so the decision was made to have the vehicle transported to Atlas Tow at 24 S. Amphlett San Mateo, CA. CHP, MVFD E55, Mr. Cutler and Mr. Khurana (Tesla representatives) accompanied the vehicle to the tow yard in San Mateo. B51 terminated IC and all MVFD units cleared the scene leaving it with CHP. After seeing the Tesla safely delivered to San Mateo E55 cleared the call and returned to the City of Mountain View.
